

Transfer Printer A3

Discover the difference ...

203 or 300 dpi print head

203 and 300 dpi print head may be interchanged at any time.

Compact outside, huge inside

The translucent cover made of knock resistant material, folds inwardly as it opens thereby saving space in height and width when in operation.

Robust housing

The alloy framework guarantees performance and print precision even in factory environments.

No waiting

Fast data transfer with the 32 bit processor and 8 MB working memory.

Simple operation

Menu-driven operation via the Navigatorpad is as simple as a mobile phone. Label formats, fonts, texts and graphics can be stored on the front loaded memory card above the display.

Multiple interfaces

All you would expect plus USB and Ethernet for the PC; Host and Internet applications.

24 Month guarantee

No repair costs for 2 years.

No down-time

Both the printhead and drive rollers can be replaced very rapidly ensuring that your printer is up and running again in seconds.
